For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: COMMUNICATION DEVICE

(57) Abstract: The present invention relates to apparatus and method for providing two-way communication between two users. In particular, but not exclusively, the invention relates to a way in which communication between two users can occur whereby one of the users is given the impression that the communication they are having is with an everyday object such as teddy bear or child's doll.
